

THE MENTORING BRIDGE

The Mentoring Bridge program assists individuals in organizations who wish to develop their own Mentoring Partnerships without the aid of a program. As such, it is not an informal program but a hybrid - a cross between the more formal programs mentioned previously and a totally self-managed process.

The Mentoring Bridge provides information and training to prospective Mentors and Mentees through the Mentoring Bridge workshop and the *Mentoring Bridge Guide*. Workshop attendees are provided with an opportunity to practice the critical skills necessary to find a mentoring partner and start and sustain the partnership.
